INDEX

Malaguti

THE SPIRIT OF BOLOGNA

The next chapter begins here. But the story of Malaguti, one of the great Italian motorbike brands, began in the 1930s in Bologna, home to some of the best cars and motorbikes the world has ever seen.

Antonio Malaguti was experimenting with bicycles at the back of his workshop before going on to develop his first motorbike series. By 1958, the Malaguti spirit was conquering streets all over the world.

In 2003, Malaguti even got into racing, taking part in the 125cc World Championship and competing on legendary circuits, such as Suzuka.

Today, everything is different, yet nothing has changed. When we celebrated Malaguti's 90th birthday in 2020, we knew that there is a distinctive character that has united all our motorbikes over almost a century. From the very first series, developed in Antonio's workshop, to the latest generation machines, there's a unique passion, a soul, an energy that's in each of them. We call it simply the **SPIRIT OF BOLOGNA**.

DUNE125

NO DETOUR IS EVER
FAR ENOUGH

At home on the road
and on the dirt road.

MALAGUTI

7

DUNE125

DUNE125

When adventure calls, the **DUNE125** steps up. Whatever the road, the **DUNE125** owns it. And while it's built for comfort over long distances, it doesn't compromise on style - its sleek design takes care of that. This explorer masters every surface.

Available in: ☐ Neve White ☒ Spirito Grey

With a seat height of 790 mm, the **DUNE125** not only guarantees comfort in every situation, but also ensures a high upright riding position, with the next adventure already in your sights.

MISSION125/200

URBAN
AGILITY

Your daily life is its mission.

MISSION125/200

Tried and tested technology went into this sprinter: 1 cylinder, 4 stroke, water cooling, disc brake, conventional suspension fork – no compromises and nothing left to chance. Everything to support the mission to get you through the city in the best way, every day.

Available in: ☐ Neve White ☒ Spirito Grey

The MISSION is the golden mean in city traffic. Its dimensions and weight make the MISSION as agile as other scooters wish they were. It's also superbly comfortable and even manages to look good.
